## 2019 Programme of Training Courses

NDM is committed to the professional development of our staff, recognising the importance of training, and encouraging staff to maximise the opportunities available to them. NDM have worked with OLI and the Careers Service to provide some bespoke courses, details can be found at the below link:

<https://www.ndm.ox.ac.uk/working-for-ndm/2019-programme-of-training-courses/>

## Micro-Internship Programme for Research Staff

Micro-internships are 2-5 day voluntary work experience placements facilitated by the University of Oxford. This new pilot programme is designed especially for research staff at grade 6 or above, who are currently on a fixed term contract at Oxford or who finished their fixed term contract in the past 12 months.

To apply you will need to register with [CareerConnect](#) if you have not done so already. Once you have found a micro-internship you wish to apply for, just follow the link alongside the opportunity

and you will be directed to the relevant application page. For full details of the scheme visit our [Micro-Internships for Research Staff webpage](#).

When will they take place?

Placements will take place in Week 6 (3-7 June) and/or Week 7 (10-14 June) of Trinity Term.

When do I apply?

Applications open on Wednesday 13 March and the deadline to apply is midday on Monday 1 April. All applicants will be informed of the outcome by Thursday 25 April.

## 2019 Old Road Campus Journal Club and Seminars

### **Old Road Campus DPhil Student Seminars:**

Are an opportunity for fellow DPhil students to present their work in an informal environment. Whether you are a first year rotation student or in your final year we would love to hear what you're working on. Drinks and snacks provided!

More information via this link:

<https://talks.ox.ac.uk/talks/series/id/6b31b19d-4bbd-41f4-a85a-bdbafb623d49>

### **Old Road Campus DPhil Journal Club:**

Are an initiative to provide a familiar environment for students to meet, network and talk about science. We alternate two types of event Journal Club meetings and seminars. During a regular Journal Club meeting, 2-3 students present any (relatively recent) paper they've read and found interesting, want to discuss it or have questions they want to ask students from other backgrounds. Student seminars are here specifically to test a presentation before a conference, lab meeting or another seminar. Presenting students have the opportunity to get feedback in a friendly and relaxed environment, while all can get to know the areas of research of their colleges.
